SCHAKOWSKY STATEMENT ON WHITE HOUSE REPORT

Washington, D.C.—U.S. Representative Jan Schakowsky (D-IL) released the following statement today:

“The White House report exposes the many failures of the Bush Administration. It is a stark reminder of the human and financial costs of the Iraq war.”

More than 3,600 American troops have been killed, 26,000 have been wounded, and over 100,000 Iraqi civilians have been killed or injured.

In the last six months, President Bush has had numerous chances to end the war, but he has chosen to continue the conflict.

It is high time for this President to acknowledge, what a majority of Americans already know, that the Iraq war is a failure.
