**STATEMENT FROM REPRESENTATIVE SCHAKOWSKY ON THE BOMBINGS IN LONDON**

CHICAGO, IL -- "All people in the Chicago metropolitan area today are identifying with the people of London and are thinking about them as we get on busses and subways and El trains and our hearts go out to them. This tragedy should serve as a wake-up call for America and the President that we need to refocus our resources on our own homeland security infrastructure and redirect our efforts once again to the fighting the real perpetrators of international terror."
